Beat the elements with Paint Protection

CORROSION CONTROL MODULE

What is the DK9000 Corrosion Management System?

Vehicle corrosion is an electro-chemical process involving the deterioration of steel because of its reaction with the environment.

The DK9000 Corrosion Management System combines electronically controlled pulse-impressed current and sacrificial anode technology to control the increased flow of electrons away from the steel.

DK9000 Dual Bodyguard Technology

The state-of-the-art microprocessor module impresses a safe and controlled direct current pulse of electricity to polarize the steel and reduce corrosion.

In addition to the impressed current method of protection, the DK9000 offers an extra level of corrosion prevention. The DK9000 sacrificial anodes possess a lower corrosion potential than steel and a naturally higher positive charge than the vehicle body and thereby become consumed by corrosion, instead of the vehicle's steel.

CAR DETAILING KIT

The Ultimate Automotive Detailing System

The best defense is a good offense. Every vehicle manufacturer recommends regular vehicle maintenance including washing your vehicle regularly. The Diamond-Kote® Car Detailing Kit is the perfect home Kote companion to the Diamond-Kote® Warranty Protection Products. These maintenance products are 100% compatible with the professional grade products your dealer installs on your vehicle.

Kit contains:

Wash & Glow Vehicle Shampoo
Crystal Clear..... Auto Glass Cleaner
Interior Care Leather Vinyl Conditioner
Speed Glaze Auto Paint Restorer
Express Eliminator Spot & Stain Remover

BONUS items included:

- Premium "WaterSprite" Deluxe Chamois
- Deluxe Wash Mitt
- 100% Cotton Polishing Cloth
- Paint Restorer Applicator Pad

Insulate, protect and reduce noise up to 50%

WITH PROTECTION

What is Sound Shield and what does it do?

THE ENEMY

- Road Salt
- Gravel
- Sand
- Road Noise
- Engine Noise

The underbody of your vehicle requires special protection against moisture, temperature extremes, abrasion and road noise. This seldom seen area of your vehicle is the most exposed and vulnerable to the elements of nature. In addition road noise enters the passenger compartment, diminishing the smooth, quiet ride you have come to expect.

Diamond-Kote® Sound Shield is a permanent, durable coating applied to the underbody of your vehicle, sealing and insulating your car.

Sound Shield reduces road noise by up to 50% while providing insulation and protection from squeaks, rattles, engine noise and moisture.

Diamond-Kote® Sound Shield is complemented with a fully insured warranty policy*.

Is factory paint not tough enough?

Paint technology has advanced significantly over the years and so has the number of environmental hazards that can destroy your vehicle's finish. Even as your new vehicle rolls off the assembly line, the paint finish is not protected.

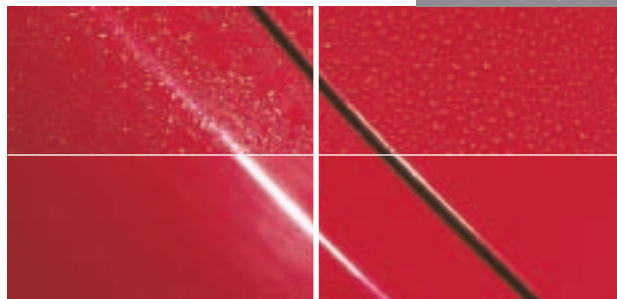

Diamond-Kote® Paint Protection is a unique transparent cross-link polymer formulation.

Our Paint Protection bonds to the painted surface in a continuous film that acts as a sacrificial barrier between the paint and the destructive elements your vehicle faces every day. Diamond-Kote® Paint Protection provides "peace of mind" protection for your vehicle.

THE ENEMY

- Fading
- Oxidation
- Ultraviolet Rays
- Pollution
- Tree Sap
- Bird Droppings
- Car Wash Chemicals
- Road Salt
- Acid Rain

WITH PROTECTION

WITHOUT PROTECTION

Diamond-Kote® has been protecting vehicles in North America for over 30 years. We formulate all of our own products, then build and package these products under our strict quality assurance controls in our own factory.

At Diamond-Kote® our commitment to protecting your vehicle is absolute. Each of our unique protection products is backed by a fully insured warranty policy*. **Diamond-Kote® Paint Protection is truly complete protection for your vehicle.**

*Ask your authorized Diamond-Kote® dealer for complete warranty terms and conditions.

Preserve the natural beauty of your vehicle's interior

Why should I Rust Protect my vehicle?

Rust shortens the life of your vehicle and ruins its appearance, greatly reducing its resale value. The simple truth is that vehicles still rust. In fact they start rusting from the moment the steel is made.

Diamond-Kote® Rust Protection forms a permanent barrier between the metal panels of the vehicle and the elements of nature to prevent corrosion. Many people believe that road salt is the most common cause of vehicle rust. It certainly helps promote corrosion but the number one cause of vehicle rust is condensation.

Moisture creeps into your vehicle's seams and crevasses where this condensation acts as a conductor to promote rust.

THE ENEMY

- Condensation
- Freezing Water
- Road Salt
- Electrochemical Corrosion
- Humidity
- Spot Welding
- Time

Does the factory Rust-Protect my vehicle?

Automobile manufacturers ship their vehicles to all corners of the world and all climates. Only a small portion of these vehicle markets are considered "Corrosion Zones" so it is not feasible to add complete rust protection at the factory.

Diamond-Kote® Rust Protection is applied to the fully assembled vehicle (without the need to drill holes in your new car!) to create an air and water-tight barrier which prevents moisture from attacking even the most recessed, vulnerable metal surfaces on your vehicle.

Diamond-Kote® Rust Protection is a part of the total Diamond-Kote® Automobile Preserve and Protect system backed by a fully insured warranty policy*.

*Ask your authorized Diamond-Kote® dealer for complete warranty terms and conditions.

Stop rust before it starts

Why protect your new vehicle Leather/Vinyl Interior?

The Diamond-Kote® Leather/Vinyl Protection formula creates an invisible barrier which protects all leather and vinyl surfaces from accidental spills. Its unique chemistry allows the leather to breathe naturally and maintain the necessary natural moisture balance to ensure a smooth supple finish for a long time.

Unlike most commercial leather and vinyl treatments, the Diamond-Kote® product utilizes a unique "semi-permeable" water-based formula that keeps most stains from penetrating – allowing for quick and easy clean up.

THE ENEMY

Accidental Spills

Diamond-Kote® Leather/Vinyl Protection preserves the natural beauty of your vehicle's interior.

WITH PROTECTION

WITHOUT PROTECTION

Diamond-Kote® Leather/Vinyl Protection is backed by a fully insured warranty policy*. This powerful combination allows you and your vehicle's interior to breathe easier. For over 30 years we have been protecting the appearance of vehicles in North America. Don't leave your vehicle exposed and unprotected.

*Ask your authorized Diamond-Kote® dealer for complete warranty terms and conditions.

Invisible protection that penetrates deep into every fibre

Why protect your new car's Fabric Interior?

You spend more time in your vehicle than ever before. It is inevitable that at some point someone will soil your vehicle's fabric carpet or seats. It's a part of life and a significant detractor from your vehicle's resale value. We make sure that no spill becomes a permanent stain on your vehicle's interior fabric.

Diamond-Kote® Fabric Protection penetrates deep into the fabric, forming an invisible shield around each and every fiber.

This protective coating inhibits the penetration of frustrating spills such as coffee, tea, milk, soft drinks, food and urine – without affecting the fabric's natural texture. Diamond-Kote® Fabric Protection is non-toxic and utilizes a completely CFC-free formulation.

THE ENEMY

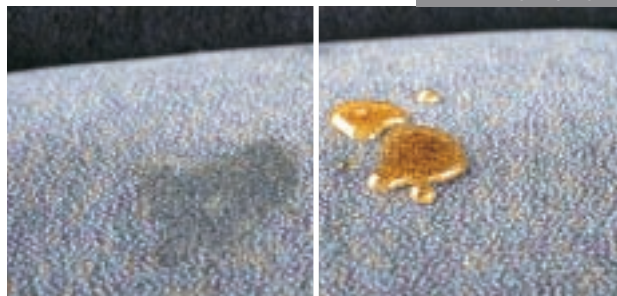

- Drink Spills
- Food Stains
- Pets

Spills and stains are unavoidable.

They lead to the premature aging of your vehicle, reducing its resale value.

Diamond-Kote® Fabric Protection is non-toxic and CFC-free providing years of worry-free safe protection for vehicle fabric interiors. Because the protective ingredients bond to each individual fiber rather than a simple surface coating, the protective strength is total and the fabric is allowed to breathe and move naturally.

WITH PROTECTION

WITHOUT PROTECTION

Diamond-Kote® Fabric Protection is backed by a fully insured warranty policy*. Keep your vehicle interior looking new... longer.

*Ask your authorized Diamond-Kote® dealer for complete warranty terms and conditions.
